SUPPLEMENTAL INFORMATION:

I. Background

OSHA recognition of an NRTL signifies that the organization meets the requirements in Section 1910.7 of Title 29, Code of Federal Regulations (29 CFR 1910.7).

Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within its scope of recognition and is not a delegation or grant of government authority. As a result of recognition, employers may use products properly approved by the NRTL to meet OSHA standards that require testing and certification. OSHA maintains an informational Web site for each NRTL that details its scope of recognition available at <http://www.osha.gov/dts/otpc/nrtl/index.html>.

The Agency processes applications by an NRTL for renewal of recognition following requirements in Appendix A to 29 CFR 1910.7. OSHA conducts renewals in accordance with the procedures in 29 CFR 1910.7, App. II.C. In accordance with these procedures, NRTLs submit a renewal request to OSHA, not less than nine months, or no more than one year, before the expiration date of its current recognition. A renewal request includes a request for renewal and any additional information the NRTL wishes to submit to demonstrate its continued compliance with the terms of its recognition and 29 CFR 1910.7. If OSHA has not conducted an on-site assessment of the NRTL's headquarters and key sites within the past 18 to 24 months, it will schedule the necessary on-site assessments prior to the expiration date of the NRTL's recognition. Upon review of the

submitted material and, as necessary, the successful completion of the on-site assessment, OSHA announces its preliminary decision to grant or deny renewal in the Federal Register and solicit comments from the public. OSHA then publishes a final Federal Register notice responding to any comments and renewing the NRTL's recognition for a period of five years, or denying the renewal of recognition.

TUVRNA initially received OSHA recognition as an NRTL on August 16, 1995 (60 FR 42594). TUVRNA's most recent renewal was on March 18, 2002, for a five-year period, expiring on March 19, 2007. TUVRNA submitted a timely request for renewal, dated June 12, 2006 (see Ex. OSHA-2007-0042-0004), and retains its recognition pending OSHA's final decision in this renewal process. The current addresses of TUVRNA facilities recognized by OSHA and included as part of the renewal request are:

1. TUVRNA Newtown, 12 Commerce Road, Newtown, Connecticut 06470; and
2. TUVRNA Austin, 2324 Ridgpoint Drive, Suite E, Austin, Texas 78754;

II. Notice of Preliminary Findings

OSHA is providing notice that TUVRNA is applying for renewal of its current recognition as an NRTL. This renewal covers TUVRNA's existing NRTL scope of recognition. OSHA evaluated TUVRNA's application for renewal and preliminarily determined that TUVRNA can continue to meet the requirements prescribed by 29 CFR 1910.7 for recognition. Accordingly, OSHA is making a determination that it does not need to conduct an on-site review of TUVRNA's facilities based on its evaluations of TUVRNA's application and all other available information. This information includes OSHA's most recent audit of TUVRNA's headquarters, TUVRNA Newtown, on July 25-26, 2013, in which the auditors found some non-conformances with the requirements of

29 CFR 1910.7. TUVRNA addressed these issues sufficiently to meet the applicable NRTL requirements.

OSHA staff also performed an audit of the TUVRNA Austin site on August 23-25, 2010. The auditors found some non-conformances with the requirements of 29 CFR 1910.7. TUVRNA addressed these issues sufficiently to meet the applicable NRTL requirements. This preliminary finding does not constitute an interim or temporary approval of the application for renewal.

OSHA welcomes public comment as to whether TUVRNA meets the requirements of 29 CFR 1910.7 for renewal of their recognition as an NRTL. Comments should consist of pertinent written documents and exhibits. Commenters needing more time to comment must submit a request in writing, stating the reasons for the request. OSHA must receive the written request for an extension by the due date for comments. OSHA will limit any extension to 30 days unless the requester justifies a longer period. OSHA may deny a request for an extension if it is not adequately justified. To obtain or review copies of the publicly available information in TUVRNA's application and other pertinent documents (including exhibits), as well as all submitted comments, contact the Docket Office, Room N-2625, Occupational Safety and Health Administration, U.S. Department of Labor, at the above address; these materials also are available online at <http://www.regulations.gov> under Docket No. OSHA-2007-0042.

OSHA staff will review all comments to the docket submitted in a timely manner and, after addressing the issues raised by these comments, will recommend whether to grant TUVRNA's application for renewal. The Assistant Secretary will make the final decision on granting the application and, in making this decision, may undertake other

proceedings prescribed in Appendix A to 29 CFR 1910.7. OSHA will publish a public notice of this final decision in the Federal Register.

III. Authority and Signature

David Michaels, PhD, MPH, Assistant Secretary of Labor for Occupational Safety and Health, 200 Constitution Avenue, NW., Washington, DC 20210, authorized the preparation of this notice. Accordingly, the Agency is issuing this notice pursuant to 29 U.S.C. 657(g)(2), Secretary of Labor's Order No. 1-2012 (77 FR 3912, Jan. 25, 2012), and 29 CFR 1910.7.

Signed at Washington, DC on February 19, 2014.

David Michaels,
Assistant Secretary of Labor for Occupational Safety and Health.
